prepostprint.org

curious zine made by euji, martin, natalia and julien, with precious even involuntary contributions by kenneth g., briar l., david g., elisée r., grum999, aaron s., april g., étienne d.l.b., mckenzie w., charles s., henry m., pierre k., eric g.m. and many more.

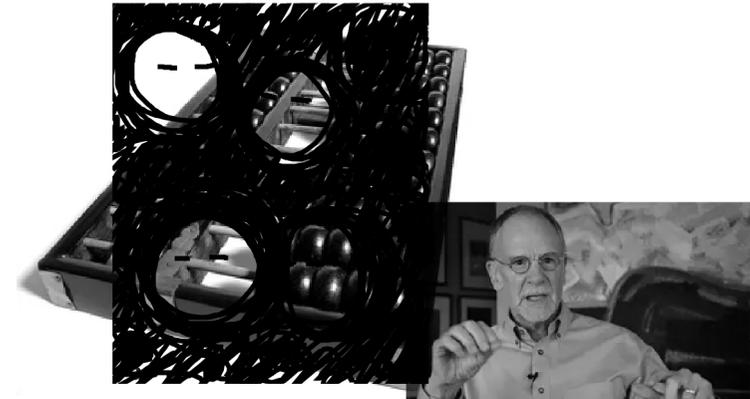

Le livre est crucial, mais sans importance.

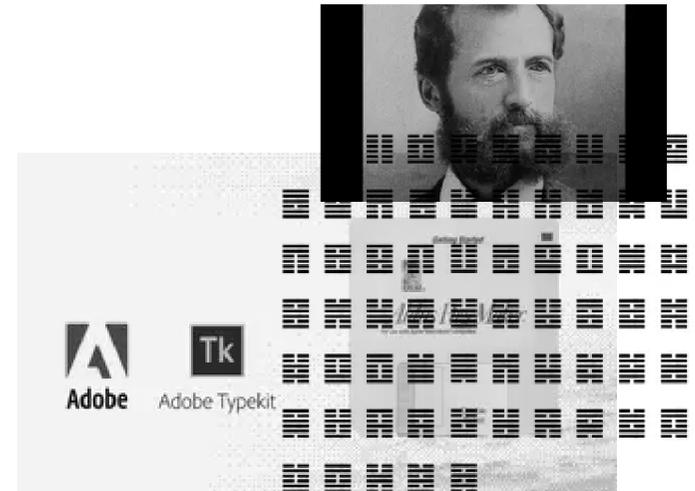

Les écrits ennuyeux et interminables encouragent une sorte de non-compréhension sans effort, un langage dans lequel la lecture elle-même paraît parfaitement...

Si vous assumez le plagiat, ça passe. Si vous essayez de feindre, vous vous faites prendre.

pppirates - 04-04-2025

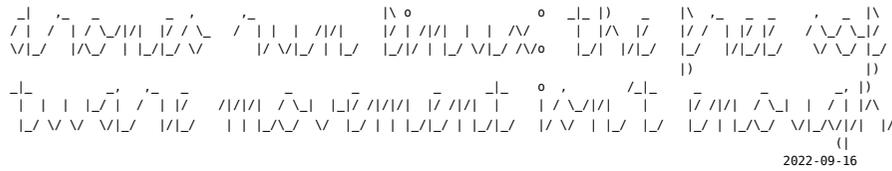

L'entité humaine auparavant connue sous le nom de « lecteur ».

La nouvelle autobiographie c'est l'historique de notre navigateur.

Répétez après moi : « je suis un pirate ».

Si vous ne produisez pas d'art avec l'intention qu'il soit copié, vous n'êtes pas un artiste fait pour le 21e siècle.

a printer, a lab, and an actual hobbit with an insane dream

richard stallman. rms. if you've spent time in tech, you may know his name. in popular tabloid culture, he's painted as a sexist pedo - in 4chan-esque dungeons, he's heralded as a savior.

benefits, which were responsible for the absolute dominance of things like gcc, the gnu coreutils, and linux - have been hopelessly devoured. all they had to do was strip away the pesky moral movement that all of these efficiency gains carried with it - and voila. money.

thinkpads that can barely manage a youtube video. why should my grandma learn about linux? i bought her an ipad, and she understands it. her eyes are going. linux is not accessible. she's happier and more connected to her family because of it.

in reality, he's a very flawed human that discovered something most of us never will. a single cause to commit the rest of his entire life to.

most people who make open source software have probably never heard of stallman or the free software movement.

i refused to use discord for years - but instead of furthering freedom, i hurt myself. the severance of many meaningful relationships. most of my old friends simply moved on without me. if you don't have vocal chords, people forget that you exist.

rms has led the free software movement for 40 years. his asset is his flaw. he is stubborn. extremely stubborn. absolutely unwilling to deviate, admit fault, change, or back down. a staunch revolutionary on a blazing battleground. the world will see free software as a moral right, and he will die fighting, no matter what anyone says.

all that remains is bootcamps, github, obscured javascript, and companies trying to save as much money as possible by paying_nobody_ to produce the software that they make millions from. and why not? it's free.

you might say they probably weren't real friends if they forgot about me so easily. but they were real to me. try it yourself, and see what happens.

snakes in the hobbits den

i believe that the free software movement is over, and that it has been over for years. all that remains are a few men with grey beards, tattered war drums, and a long line of allegations.

ultimately, my stubborn resistance made no difference.

but stallman is an old man now. the world moved on without him. he beats the same war drum, but nobody is listening. groups of capital formed, and two libertarians started the open source movement[1] as a corporate-friendly free software alternative.

and god. we tried.

most people don't care about the free software movement. the benefits are vague, and the consequences are life-changing. you lose touch with friends and family. it takes a lot more time and energy to navigate. to bank. to find restaurants or activities, looking at things to buy. tracking your calendar. doing your taxes. living.

and they won.

i thought i heard a plane, crashing but now i think it was your passioning snapp ing

eventually, you will realize that it's not worth it. you'll start using software that eases your life, and you'll question whether all of this denial was worth it.

and won. and won. and won and won and fucking won. the accidental benefits of the free software movement: a global community working asynchronously, sharing code without pay. these important, critical

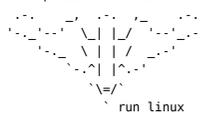

using non-free software is not a personal failing. we only have so much time, and it tick-tick-ticks.

i cancelled my FSF membership, after 10 years of faithful support.

all of that fighting
all of that denial, resisting temptation.
war drums, freedom,
coding, sharing,
friends, love,

after all of that,
after everything,

predator drones

run linux

2022-09-16

Nam June Paik a dit un jour qu'Internet est pour tous ceux qui ne vivent pas à New York City.

C'est l'art qui est hors-sujet, pas l'avant-garde.

Nous n'avons pas besoin d'une nouvelle phrase. Une vieille phrase remaniée fera l'affaire.

Si vous écoutez Beethoven, tout est toujours pareil, mais si vous écoutez le bruit de la circulation, tout est toujours différent, a dit John Cage.

Julien Bidoret parle de video grep : un outil qui permet de chercher une transcription de sous-titres et permet de faire un montage vidéo de toutes les occurrences d'un mot dans un discours (eg : Mark ...

Alexia found this super nice zine from iffybooks about pdfbook2 https://iffybooks.net/wp-content/uploads/zines/Iffy_Books_pdfbook2_screen.pdf

You can't steal a gift. If you can hear it, you can have it

How We Work and How We Might Work

electric zine maker - <https://alienmelon.itch.io/electric-zine-maker>

As designers, publishers and artists daily involved in digital tools, we are aware that these technologies maintain a perspective of growth and profit for the sole benefit of the most fortunate and the best born. We refuse to see this as inevitable and have the strong desire to put our knowledge and findings at the service of something better.

conversation about why it's interesting to talk about the W3C specifications for CSS context of us being designers/people who like to make publications, work with floss and collectively

Jen Simmons <https://jensimmons.com/> is an important person for firefox she experimented with grids (the experimental layout lab of jen simmons) Who is that? :) Now she is at Safari, still working on g...
