Copier et coller des mots d'ailleurs dans mon fichier Word : au moment où je les vois sur mon ordinateur, dans ma police par défaut, ils deviennent subitement «...

La beauté de mal classer.

2 Le futur de l'écriture, c'est la gestion du vide.

a printer, a lab, and an actual hobbit
with an insane dream

richard stallman. rms. if you've spent time in tech, you may know his name. in popular tabloid culture, he's painted as a sexist pedo - in 4chan-esque dungeons, he's heralded as a savior.

in reality, he's a very flawed human that discovered something most of us never will. a single cause to commit the rest of his entire life to.

rms has led the free software movement for 40 years. his asset is his flaw. he is stubborn. extremely stubborn. absolutely unwilling to deviate, admit fault, change, or back down. a staunch revolutionary on a blazing battleground. the world will see free software as a moral right, and he will die fighting, no matter what anyone says.

snakes in the hobbits den

but stallman is an old man now. the world moved on without him. he beats the same war drum, but nobody is listening. groups of capital formed, and two libertarians started the open source movement[1] as a corporate-friendly free software alternative.

and they won.

and won. and won. and won and won and fucking won. the accidental benefits of the free software movement: a global community working asynchronously, sharing code without pay. these important, critical

benefits, which were responsible for the absolute dominance of things like gcc, the gnu coreutils, and linux - have been hopelessly devoured. all they had to do was strip away the pesky moral movement that all of these efficiency gains carried with it - and voila. money.

most people who make open source software have probably never heard of stallman or the free software movement.

all that remains is bootcamps, github, obscure javascript, and companies trying to save as much money as possible by paying nobody to produce the software that they make millions from. and why not? it's free.

i believe that the free software movement is over, and that it has been over for years. all that remains are a few men with grey beards, tattered war drums, and a long line of allegations.

at the end of the day, the free software movement was colonized. and we tried to save it.

and god. we tried.

i thought i heard a plane, crashing but now i think it was your passionate snapp ing

using non-free software is not a personal failing. we only have so much time, and it tick-tick-ticks.

nobody wants to use 10 year old

thinkpads that can barely manage a youtube video. why should my grandma learn about linux? i bought her an ipad, and she understands it. her eyes are going. linux is not accessible. she's happier and more connected to her family because of it.

i refused to use discord for years - but instead of furthering freedom, i hurt myself. the severance of many meaningful relationships. most of my old friends simply moved on without me. if you don't have vocal chords, people forget that you exist.

you might say they probably weren't real friends if they forgot about me so easily. but they were real to me. try it yourself, and see what happens.

ultimately, my stubborn resistance made no difference.

most people don't care about the free software movement. the benefits are vague, and the consequences are life-changing. you lose touch with friends and family. it takes a lot more time and energy to navigate. to bank. to find restaurants or activities, looking at things to buy. tracking your calendar. doing your taxes. living.

eventually, you will realize that it's not worth it. you'll start using software that eases your life, and you'll question whether all of this denial was worth it.

i cancelled my FSF membership, after 10 years of faithful support.

after all of that,

after everything,

predator drones

run linux

As teachers, students, researchers, perpetual learners, we know the power of sharing knowledge, tools and experiences. We firmly believe that exchanging point of views, experiences and questions improve individual and collective thoughts and production. Nous aimons voir nos outils et nos idées utilisées, hackées et détournées. We believe that reciprocity in sharing is positive regardless of the technical skills, the specificity of the culture or the seniority in the field. Nous sommes là grâce à nos prédécesseur·es, nous avons plaisir à accueillir les newcomers.

how to tweak your layout engine? you should be able to tweak the renders, from shellscripting practices: if you find a way to do a very specific layout in css but it is impractical, you can make a scr...

Si on l'ignore, tout simplement, Internet disparaîtra.

Nous écumons, analysons, annotons, copions, collons, transférons, partageons, et spammons. Lire est la dernière chose que nous faisons avec le langage.

6 L'information est comme une banque. Notre travail est de braquer cette banque.

Back before the internet we had a name for people who bought a single copy of our books and lent them to all their friends without charging: we called them "librarians".

↳ Charles Stross

*the notes are published on the wiki:
<https://wiki.prepostprint.org/index.php?title=Permapublishing> so we can link to it on the permacomputing forum*

Il ne faut pas chercher si une idée est juste ou vraie. Il faudrait chercher une tout autre idée, ailleurs, dans un autre domaine, telle qu'entre les deux quelque chose passe, qui n'est ni dans l'une, ni dans l'autre. Or, cette autre idée, on ne la trouve pas tout seul généralement, il faut un hasard, ou que quelqu'un vous la donne. Il ne faut pas être savant, savoir ou connaître tel domaine, mais apprendre ceci ou cela dans des domaines très différents. C'est mieux que le « cut-up ». C'est plutôt un procédé de « pick-me-up », de « pick-up » - dans le dictionnaire : ramassage, occasion, reprise de moteur, captage d'ondes ; et puis sens sexuel du mot »

Marie : What was before postscript ? - tendency to look at the past

How can we integrate permacomputing into publishing? We both organised it but for that reason we also missed a lot.

TABLE OF CONTENTS:(of topics we could discuss in the forum)

PrePostPrint aims to be a community of practices, a place for helping each other, sharing experiences, tools and uses, deeply rooted in the libre / open-source movement. We are teachers and students, all learners, who have in common web-to-print practices, experimentations with print via code and text interfaces, and the production of tinkered, inefficient or simply fun tools.

Nice thing about emails is that you can have multiple versions, html, txt, you could have a config to look at the txt version by default and voila (IN THEORY)

Timothee: me and Victor organised PPPermapublish in Strasbourg last September did not go far enough into the topic lot of demo's and discussions lot of seeds were planted at the time, but we did not ...

Victor: already doubted the word autonomy... in Strasbourg, there was a big factory... and it closed down. they did fancy papers, and now it is closed. there is no printer in the city where you can ...

Nous n'acceptons pas de vérité promulguée : nous la faisons nôtre d'abord par l'étude et par la discussion et nous apprenons à rejeter l'erreur, fut-elle mille fois estampillée et patentée. Que de fois, en effet, le peuple ignorant a-t-il dû reconnaître que ses savants éducateurs n'avaient d'autre science à lui enseigner que celle de marcher paisiblement et joyeusement à l'abattoir, comme ce boeuf des fêtes que l'on couronne de guirlandes en papier doré.

↳ Élisée Reclus

L'attribution d'une paternité n'est pas une exigence du droit d'utilisation.

L'échantillonnage et la citation ne sont rien d'autre que des vitrines de l'appropriation.

Bien qu'UbuWeb puisse être légalement répréhensible, il est moralement irréprochable.

(https://libregraphicsmeeting.org/2025/) in Nuremberg in late May, there could be a nice space to continue, there also are more people to continue the conversation, Brendan Howell will be there, a...

Simon uploaded some font here: https://cc.vvvvvvvaria.org/fonts/ And Julien there: https://ateliers.esad-pyrenees.fr/myffonts/

We are deeply rooted in the free software movement and want to build on its foundations. We've embraced open-source tools and practices because of their ability to be studied, hijacked, reappropriated and shared, and beyond that, because of their pouvoir émancipateur, leur capacité à défier les pouvoirs oppresseurs et les infrastructures délétères.

Emma-Jade : PA0 a simplifié la mise en page et la composition, a permis bcp plus d'expérimentations et plus rapidement sortie d'Adobe CS6 = "innover sans avoir à vous former sur de nouveaux logiciels"...
